

# Saalux<sup>®</sup> UV Comb

Effective Performance and Modern Design  
Proven Saalman<sup>®</sup> Quality

SAALMANN<sup>®</sup>

# Saalux® UV Comb

The Saalux® UV comb allows an effective therapy by a large irradiation area and a high irradiation intensity. The very low weight and the ergonomic design enhance the handling during therapy. The large and removable cover of the UV radiator protects the lamp including the UV radiator against contamination. It is very easy to clean after the therapy.

## Indications

- Psoriasis - type narrow band UV-B (311 nm)
- Vitiligo - type narrow band UV-B (311 nm)
- Neurodermatitis - type UV-A1 (370 nm max.)

## Characteristics

- Powerful - large-area and uniform irradiation
- Modern design - extremely light and ergonomic
- Closed housing contour with integrated transparent comb attachment
- Practical - no unnecessary corners and crevices for hair or scales
- Hygienic - comb attachment detachable and easy to clean inside and outside
- Durable - due to massive and robust comb attachment
- Convenient - Timer with large display and UV protection glasses
- Warranty 4 years

## Technical Data

- Dimensions: 330 x 50 x 50 mm (L x W x H)
- Weight of UV comb: 165 g
- Radiation area: approx. 120 x 45 mm
- Irradiation strength: 3.5 mW / cm<sup>2</sup> (UV-B)
- Versions: UV-B (311 nm), UV-A1 (370 nm max.)
- Power supply: 230 V / 50 Hz / 40 VA

## Scope of Delivery

Saalux® UV comb UV-B (311 nm)

Art. Nr. 07-02-000-01

Saalux® UV-comb UV-A1 (370 nm max.)

Art. Nr. 07-02-000-02

Accessories: UV protective goggles orange (staff, doctor)

Art. Nr. 07-02-019-01
